Maxon Platform DESIGN

▸▸ Color folder camera concept (cfcc)

The objective was clear as we embraced the task of creating the color folder camera concept. This phone had to cover a lot of ground. And it did.
We started out by applying the most powerful processor on the market. Then we added the most user favoured features. And finally we wrapped it all in a sleek, elegant cabinet.

Take photos and send them. Watch downloaded video sequences. Listen to soothing stereo music. The cfcc has it all. Plus of course the full suite of organizing and communicating applications:

- **Built-in VGA camera with 3 x digital zoom**
- **Stereophonic video player**
- **Java MIDP 1.0 applications download**
- **Stereo FM radio**
- **MMS & EMS**
- **Great color games**
- **Multicolor LED show**
- **Mobile Internet browser**
- **E-mail client**
- **Calendar & Tasks list**
- **Contacts database (250 entries with full address info)**
- **PC/Phone synchronization**
- **Predictive text input (T9)**
- **Vibrator**

Accessories available
- Travel & car charger
- Stereo Headset
- USB cable for PC
